

Jaraware Infosoft — product deck

— We translate research into solutions, crafting thoughtful and unified brands, mobile apps, webapps, interfaces and systems.

Jaraware Infosoft was founded in 2018 in Ahmedabad, India. Today we are a remote and onsite digital agency with more than forty members working with clients around the world. As passionate designer and developers, we love building digital products that are easy to use, accessible, engaging, and delightful.

We pride ourselves on our ability to challenge core assumptions, unpick legacy behaviors, streamline complex processes, and shape the digital products and services that improve the lives of millions every single day.

We've designed products for startups that went from \$0 to \$12,000,00 in revenue. No matter what, we bring the same level of creativity and quality to every project and we would love to do the same for you.

40+

Researchers, strategists, designers, and developers working together to create people-friendly experiences.

200+

Digital products we've helped shape, optimize, and launch since 2018.

14

Countries represented in our agency, offering a valuable global perspective on our work.

— Services and rates

— Rate Card

You can find the list of our **average rates** for each type of service.

We have a MEF (**minimum engagement fee**) in place, which means all projects start at **\$2,000**

Over the years, we've discovered this is the minimum figure that allows us to provide all our clients with a consistently high standard of work across multiple services.

Our average engagement is usually around \$10,000 - \$30,000 for 1 to 3 months of work. It is typically a combination of services, including visual identity, UX research, UI design, CMS/APP development.

We offer our clients several dynamic billing structures, including fixed project fees, hourly rates (\$15 to \$25), monthly and yearly retainers for research, design, and development services. do you want us to work on your project? feel free to write us an [email](#).

Service	Average rate
Webapp Development	\$15 - 150k
Mobile App Development	\$10 - 150k
CMS (Wordpress / Webflow)	\$7 - 50k
UI/UX Designing (1 month sprint)	\$6 - 15k
Digital Marketing (1 month sprint)	\$3 - 10k
Business Websites (Static)	\$2 - 10K
Hourly	\$15/hour - blended rate
